**Subject:** Protect FMR

Dear Melissa Miller-Hensen,

I have been leading tours at Fitzgerald Marine Reserve ever since 1988. It is one of the rare Natural resources that our children learn and enjoy. I will do my best to protect this place for our future generation. My teacher, dear ranger and naturalist Bob Breen has prepared me and inspired me as well as hundreds of docents to continue to serve voluntarily in this beautiful reserve. May the Department of Fish and Game acknowledge the great effort done for many years to keep and preserve this unique area. They should protect and preserve it and keep it available fully for our children. My husband Dr. John Haleblan has been one of the strong supporters of FMR, he too would do his best to continue to protect it.

Sincerely,

Arpi Kathleen Haleblan
